

FLASTR

Our music band **FLASTR** from Mladá Boleslav was established in spring 2009. We look with favour on **acoustic & bluegrass music** and we present mostly adopted production of the best American bluegrass bands with Czech texts made by Jan Raclavský. The texts are of very good quality, which is appreciated also by our fans. The originality of our woman singer adds to our music folk touch and therefore our music is called **POETIC BLUEGRASS**.

We play in clubs and festivals in our region as well as all over the whole Czech Republic and sometimes even in abroad (for example at EWOB in the Netherlands, and La Roche Bluegrass festival in the France).

We were two times in live broadcast in radios, first time in radio Proglas and second time in radio Český rozhlas (Czech Radio).

And our plans for the future? To stay all together, to work on improving quality, to take advantage of composer potential of some band's members that now write only for themselves and above all to bring pleasure to extending group of our fans by playing good music. Might be there any better award of our work than our audience singing our songs with us during the concerts?
